# Annual Administration Report of the Bundi State for the year ending 31st March 1905 (Samvat 1961).

## CHAPTER I.

The Bundi State in Rajputana is included in the charge of the Political Agent, Haroti and Tonk. The area is 2220 Square miles and the population in the year 1901, was 1,71,227 as against 2,95,675 in the year 1881; the decrease in the population being mainly due to the severe famine of 1899-1900 and the epidemic diseases that followed it. The present Chief is His Highness Maharao Raja Sir Raghoobir Singhji Bahadur G.C.I.E., K.C.S.I., who is in his 36th year. His Highness who is by caste a Hara Rajput, a Sept of the great Chohan race, has no heir (the only son and heir, Maharaj Kumar Raghvendrasinghji having unfortunately died at the age of nine years in the month of March 1899), and has four Ranis all of the Rathor clan of Rajputs (3 from Jodhpur and one from Jhabua). The fifth Rani, Her Highness Bagheliji from Rewah, whom His Highness married on 2nd February 1903 died at Bundi on 31st December 1904.

2. The gross revenue of the State (based on an average of the past five years shewn below) is Rupees 70,2,062 Local currency, which at the present rate of exchange is equivalent to Rs 6,10,488 Government coin. The rate of exchange being always subject to fluctuation, it is difficult to arrive at correct estimate of the gross revenue of the State in Kaldars or Government currency.

Sir A Martindale left for England on the 31st March on furlough, and was succeeded by Mr. R. G. Colvin C.I.E. The post of the Political Agent Haroti and Tonk was held by Major C. A Statement in appendix I. showing names of the high officials in the state as also the changes made in the personnel during the year under review is herewith attached.

## CHAPTER II.

There has been no land revenue settlement during the year under report, land revenue having been collected in cash according to the assessment rates fixed, both for unirrigated and irrigated land in the year 1878. Since then there have been no changes in the rates which are reasonable and the cultivators find no difficulty in paying the revenue demanded of them.

During the year under report no remissions or suspensions of revenue were made.

The year 1899-1900 having been one of severe famine followed by Epidemic disease a great number of people died and in order to check the land under cultivation, Amins were engaged and the work of checking was begun.

Some work was done in 1903 and some in 1904 and revenue registers were corrected. A small portion of the work still remains to be done *i.e.* the Tehsil of Talwas & Nainwa. As a result of this checking, there has been an increase during the year under report, in the area under cultivation, of 4000 Bighas in round numbers, yielding an increased revenue of Rs 6,519/- as compared with last year.

2. The waste land brought under cultivation in Samvat 1960 amounts to 10,768 Bighas (4002 acres) yielding Rs 5,339, as revenue to the State.

3. The following table shows the villages alienated in Jagir in Samvat 1960.

1. Rangbilas ... To Mokhamsingot Kalyan Singhji, Revenue Rs 623.
2. Nayagaon ... To Mahasingot Harinath Singhji, Revenue Rs 600.

Out of these one case, "Bood Karwar of Bundi *versus* Bhojpura of Indragarh" was settled amicably while in two cases regarding the Chambal river, appeals against the decision of the Boundary settlement officer have been submitted to the Honorable the Agent Governor-General, but the result has not yet been made known.

5. There has been no need of giving Takavi advances during the year under review.

6. There has been an increase of about Rs 12,000/- in the land revenue collection on account of waste land taken up under cultivation in 1904, and checking of land done in the year 1903—1904.

7. There was no necessity to make any remissions or suspensions of revenue during the year under report.

Appendix XVI attached herewith shows revenue from and expenditure on Municipality during the year Samvat 1960. **Municipality.**

#### CHAPTER IV.

The rainfall during the year ending 31st March 1905, was 27 inches and 50 cents against 43 inches and 8 cents in the preceding year. As rain commenced earlier and as there was no break for some-time Kharif sowings were retarded and the area sown was consequently not so much as it ought to have been Subsequently on account of excessive rainfall in July, the standing Kharif was damaged and thus the outturn was below the average-the Makka crop suffering most. **Rainfall weather crop etc:-Kharif.**

There having been some rain in the month of September, sufficient moisture was left in the ground to allow of a large area being sown with rabi crops which were excellent and gave promise of a very good outturn; but unfortunately, the winter being abnormally severe, these crops were much damaged by frost, the commercial crops such as Jeera, Alsi, opium and gram suffering most. The outturn was consequently poor and below the average. **Rabi crop.**

Taking all the crops together, the damage done to the Rabi crops was estimated a little over 5 annas in the rupee. Appendix XVII is attached herewith showing the rainfall during the year under report.

2. There being no great demand for labor during the year, the labor market has been stationary, the ordinary rates being as follows :— **Wages and labor.**

Blacksmith	...	...	...	6 annas a day
Carpenter	...	...	...	6 annas a day
Cooly	...	...	...	about 3 annas a day

**Forest.**

3. The working of the forest Department has been as usual. The revenue and expenditure is given below :—

1960	1,876 10 0	1,213 1 9

**Trade and Ma-  
nufacture.**

4. Both Kharif and Rabi crops having been damaged and especially the commercial crops, there has been some falling off in the export and import trade during the year.

Plague at Nasirabad and Kekri has also been the cause of export and import being obstructed. No important manufacture of any sort has been carried on during the year under report.

**Public Works  
Department.**

5. Appendix XIV is attached herewith showing the expenses incurred in the Public Works Department during the Samvat 1960.

**Post office.**

In the Tehsils there are no regular Post offices, the Tehsil Mohrir doing the postal work in addition to his own duties. During the year under-report the income from and expenditure on Post office has been as follows.

Samvat	Income	Expenditure.

Death rate 3.80  
per Mille

8. During the year under report the general condition of the people and the State has been satisfactory, and excepting the damage done to crops by excessive frost, no other calamity has occurred and consequently the year has been one of general happiness to the State and people. The public health has been good. Prices of food have been low and labor rates stationary. There has been no unusual birth and death rate as is shown on the margin.

The agricultural population is slowly recovering from the effects of the last great famine. Had there been no damage to the crops this year the condition of the people would have been much better. The consumption of liquor as well as other intoxicant drugs has been normal, no increase having been noted therein.

Appendices XX and XXI are attached herewith showing the agricultural stock extant in the State, and revenue derived from liquor, opium etc., etc.

## CHAPTER V.

As there have been a series of years in which damage or injury of some sort or other has been done to the crops, after the great famine of 1899-1900, the financial condition of the State during Samvat 1960 has not shown any marked improvement though there has been some increase in the gross revenue of the State. The marginally noted table will show comparatively the revenue derived in Samvat 1959 and 1960, from which it will appear that there has been an increase of revenue to the extent of Rs 12,884. This increase is mainly due to the checking of the cultivators' land done in the years 1903 and 1904 and to some uncultivated waste land being taken up for cultivation. The arrears of land revenue realized during the year under report amounted to Rs 25,024.

**Revenue and Finance.**

Samvat Revenue
